Run the Apptimized TO GO agent

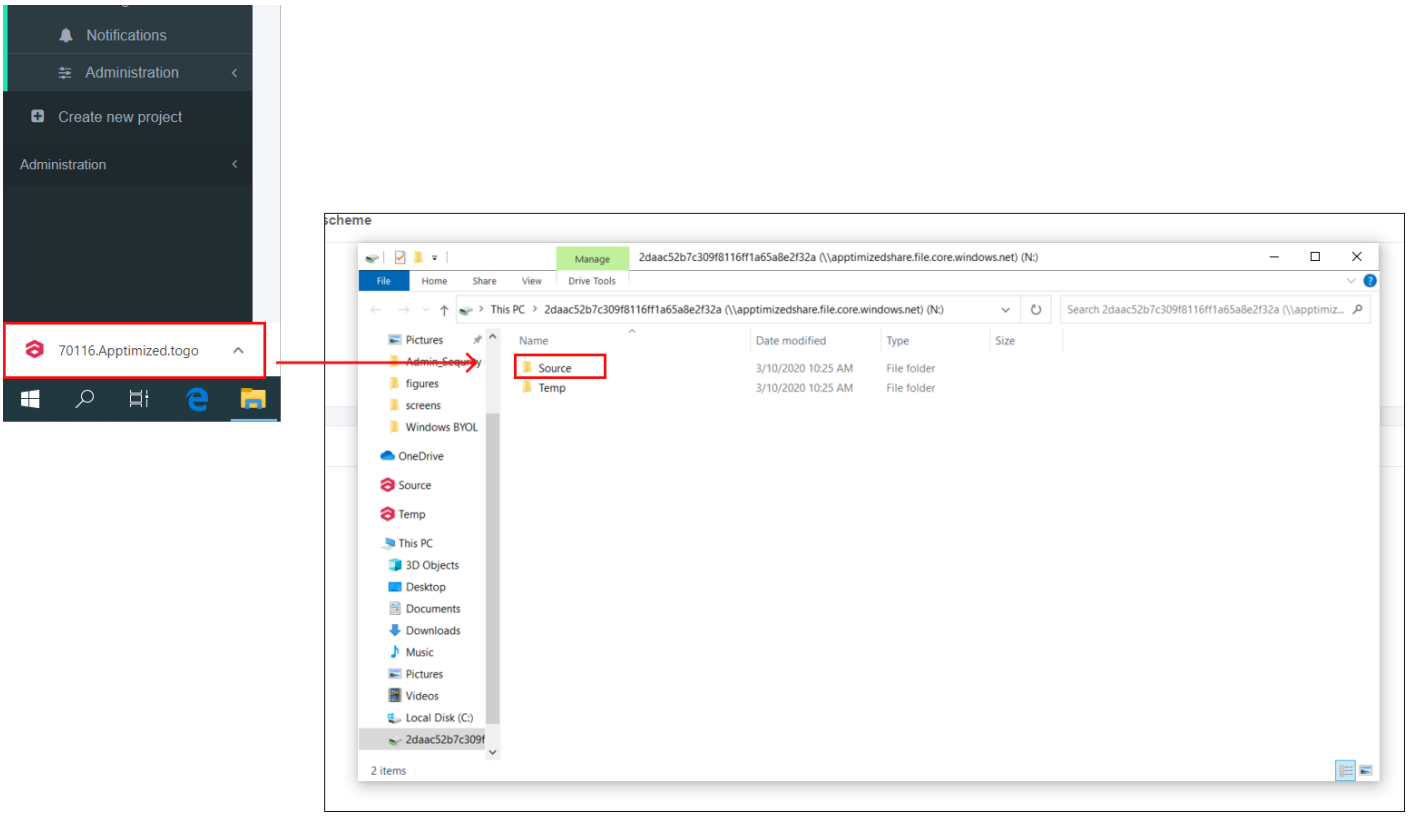

Launching **Apptimized TO GO** agent is available in two options: **Download To Go file** or **Use a deployment code.**

Using a TO GO file

When clicking on the **Download TO GO file** button a file becomes available on the customer's PC in the **Downloads** folder.

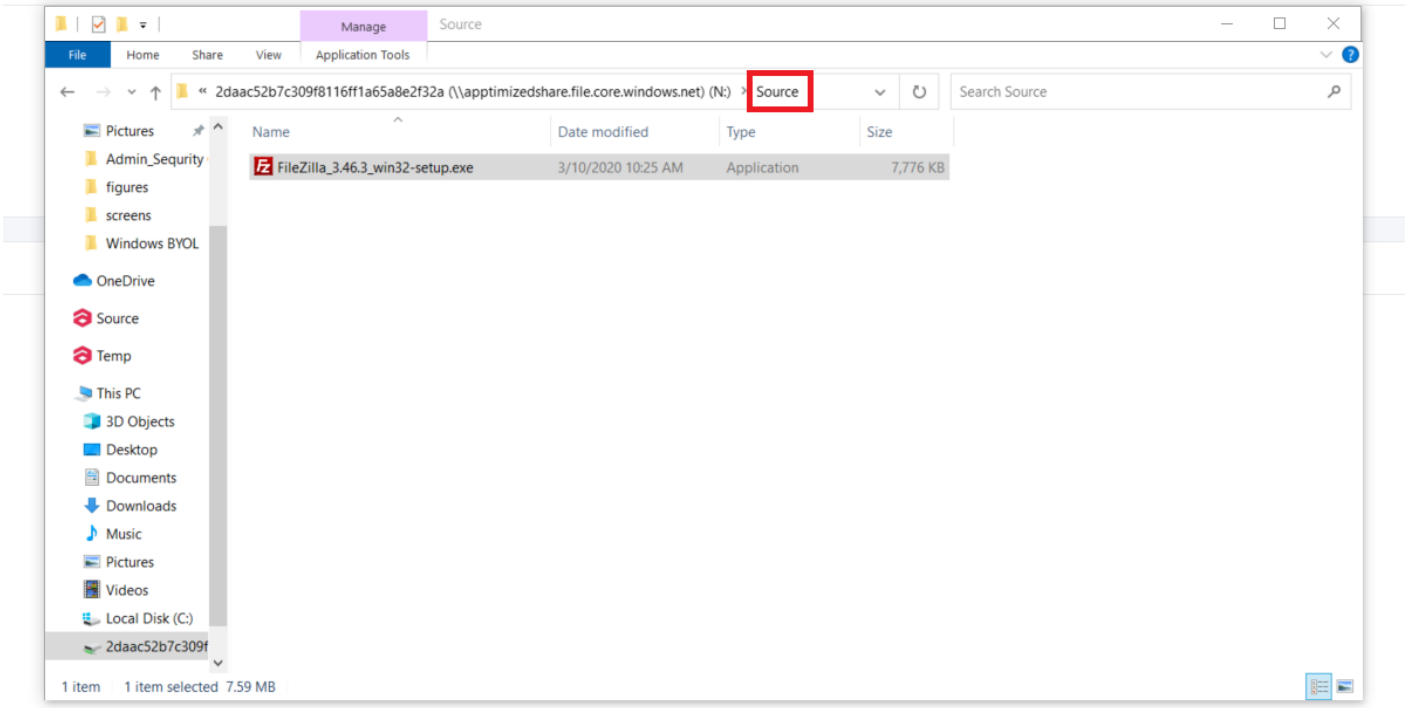

Apptimized TO GO agent launches when clicking on the **Apptimized - TO GO Manifest** file (i.e. **70116.Apptimized.togo**).

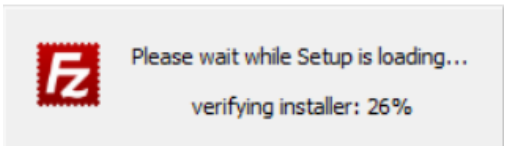

A guide recording process via **Apptimized TO GO agent** starts.

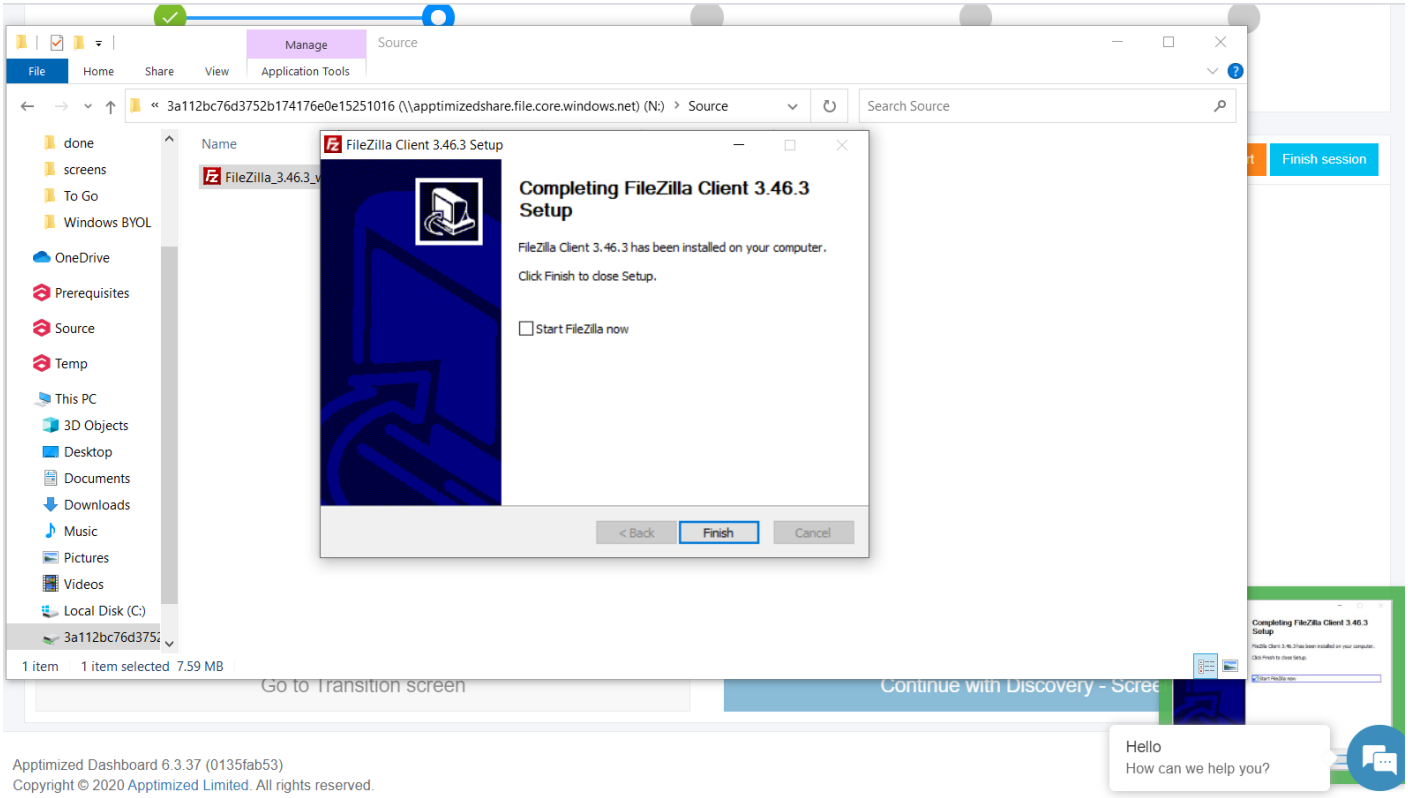

A customer needs to navigate to the files to be installed. As it is shown on the screenshot below the file is available in the **Source** folder.

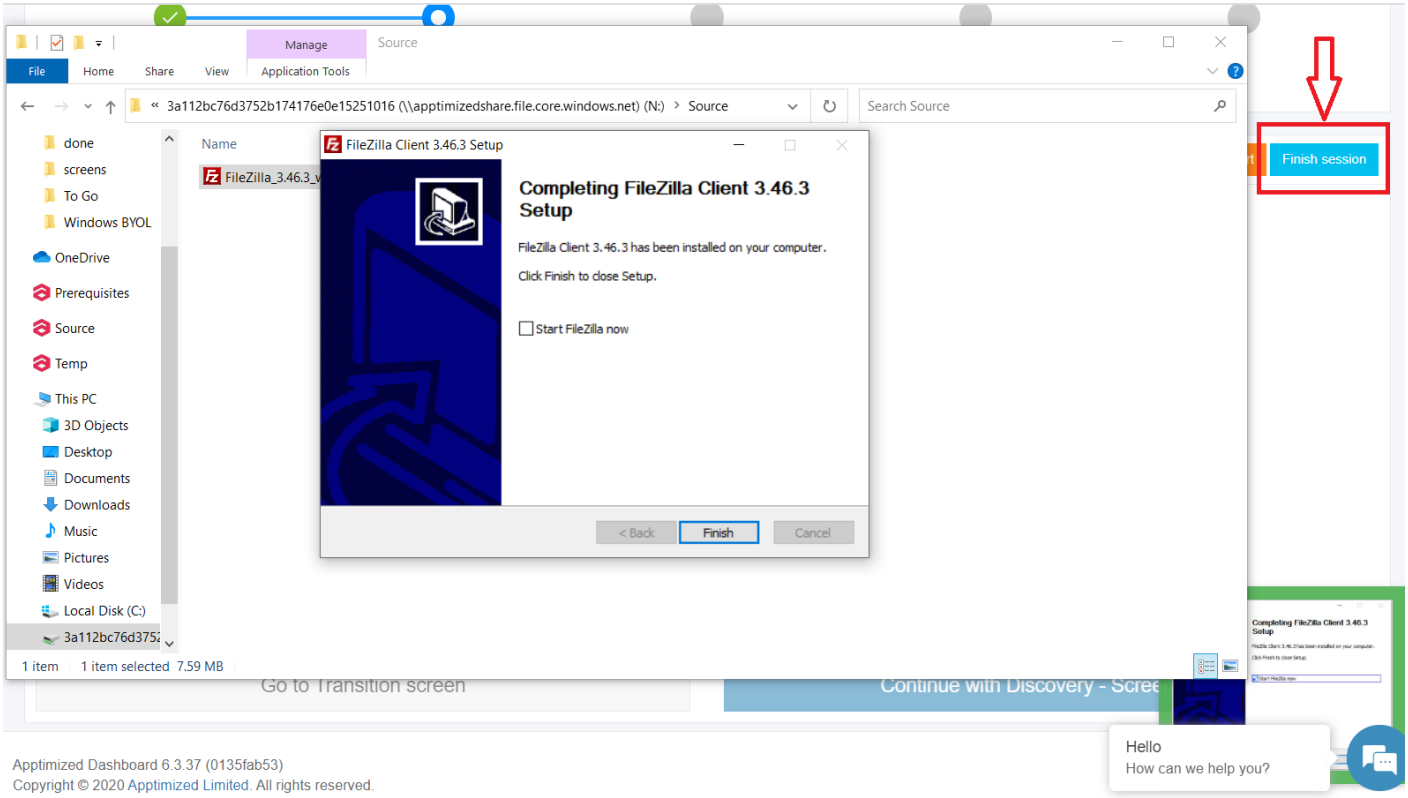

The initial preparation process may take a while.

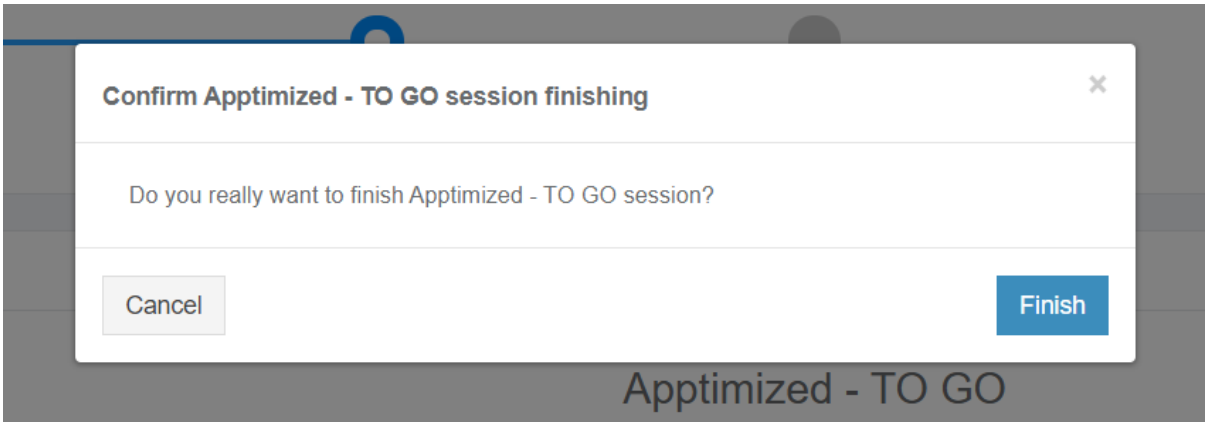

To transfer a customer experience to Apptimized all installation and configuration steps with the application must be proceeded.

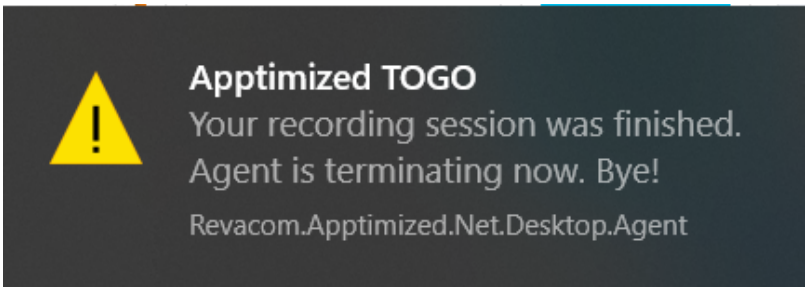

The session finishes by clicking on the **Finish session** button.

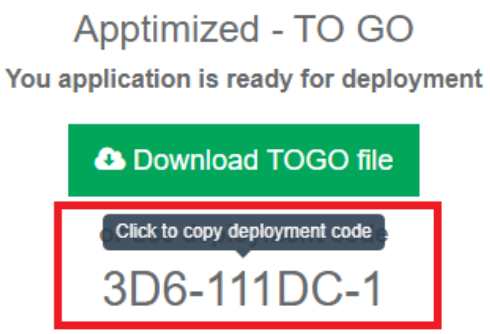

The following notifications will appear when successful:

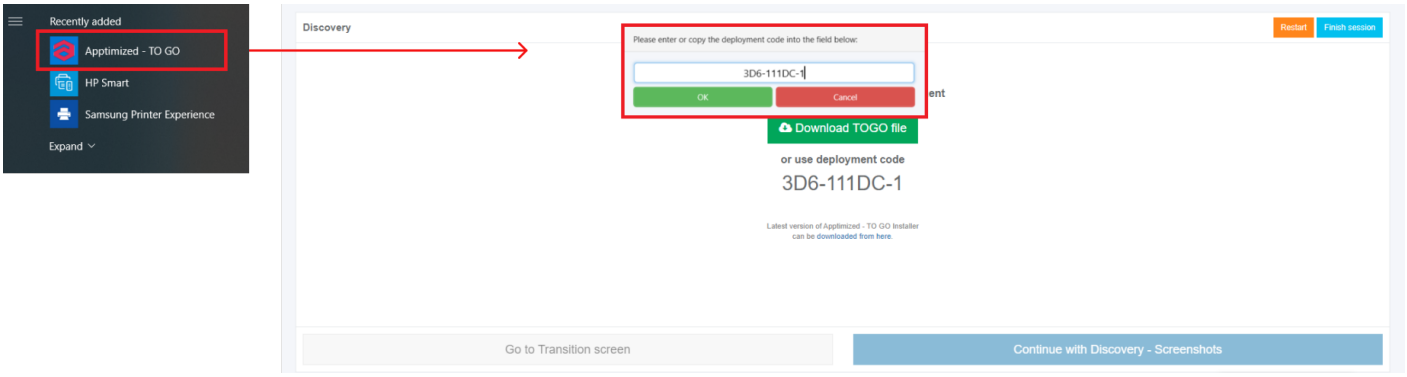

Using a deployment code

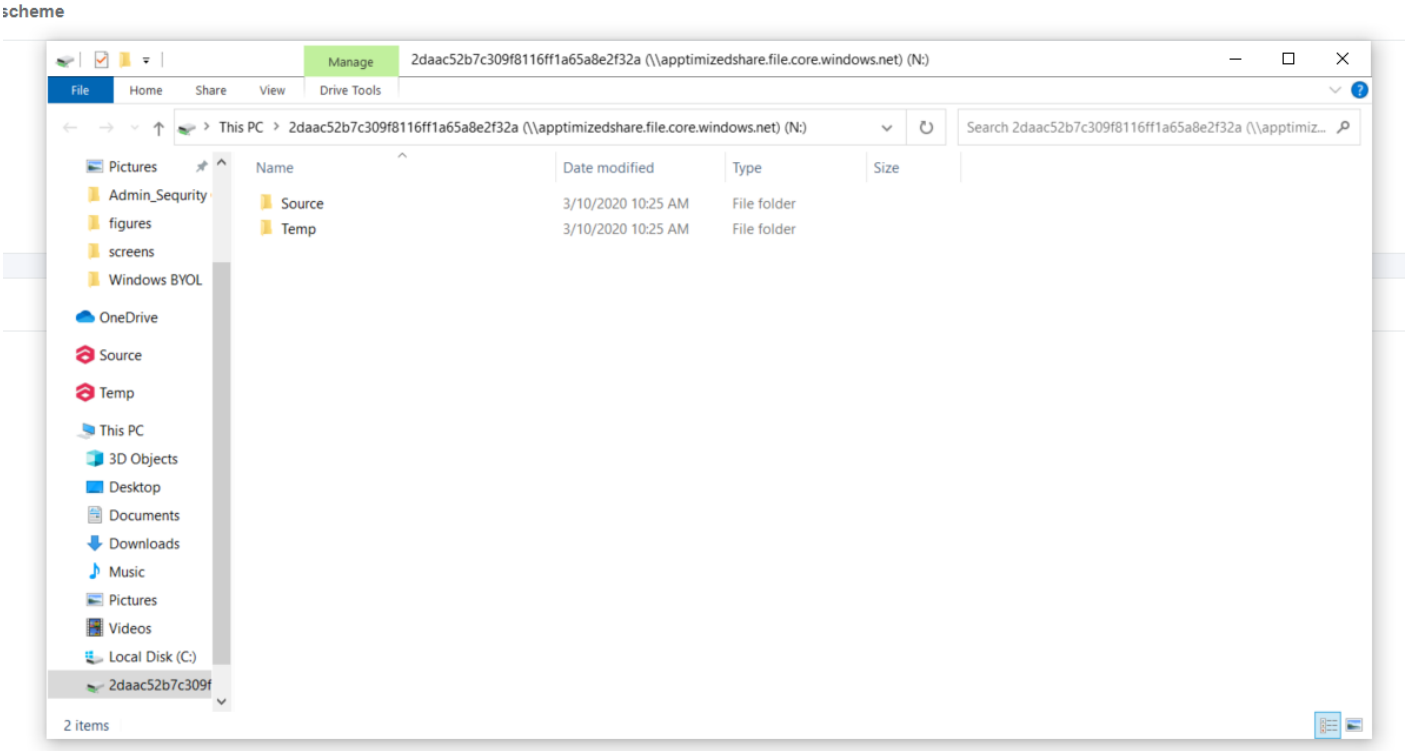

The text will be copied to a clipboard when clicking on a deployment code.

To establish a connection of a customer machine with Apptimized in the cloud the **Apptimized TO GO** agent launches from the **Start** menu. Then the deployment code must be entered into a pop-up window.

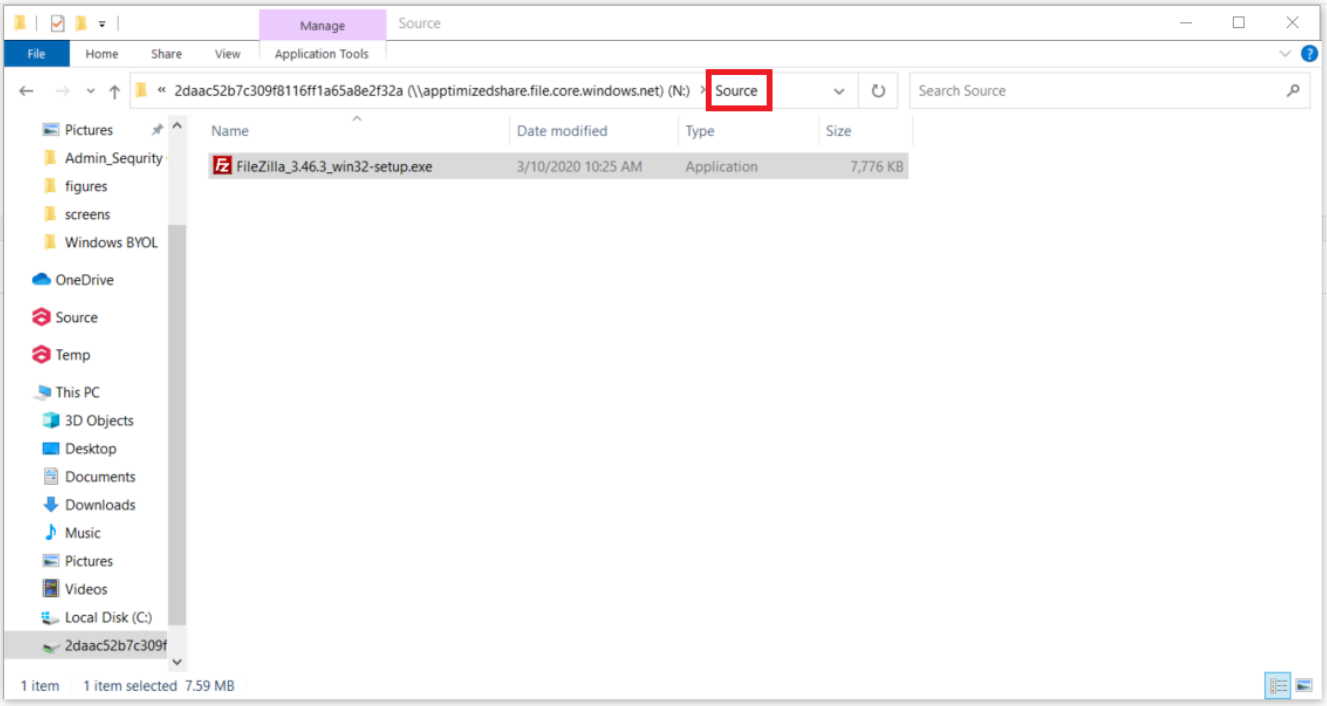

Apptimized Files with uploaded files will be automatically uploaded to the folder after clicking on the **OK** button:

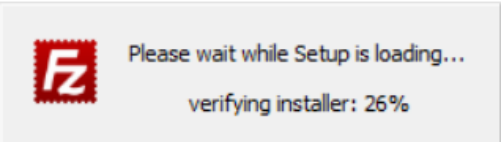

A guide recording process via **Apptimized TO GO agent** starts.
