## Run the Apptimized TO GO agent

Launching **Apptimized TO GO** agent is available in two options: **Download To Go file** or **Use a deployment code**.

## Using a TO GO file

When clicking on the **Download TO GO file** button a file becomes available on the customer's PC in the **Downloads** folder.

**Apptimized TO GO agent** launches when clicking on the **Apptimized - TO GO Manifest** file (i.e. **70116.Apptimized.togo**).

A guide recording process via **Apptimized TO GO agent** starts.

A customer needs to navigate to the files to be installed. As it is shown on the screenshot below the file is available in the **Source** folder.

The initial preparation process may take a while.

To transfer a customer experience to Apptimized all installation and configuration steps with the application must be proceeded.

The session finishes by clicking on the **Finish session** button.

The following notifications will appear when successful:

	_
Confirm Apptimized - TO GO session finishing	×
Do you really want to finish Apptimized - TO GO session?	
Cancel	Finish
Apptimized - TO GO	
Apptimized TOGO Your recording session was finished. Agent is terminating now. Bye! Revacom.Apptimized.Net.Desktop.Agent	

## Using a deployment code

The text will be copied to a clipboard when clicking on a deployment code.

## Apptimized - TO GO

You application is ready for deployment

scheme

To establish a connection of a customer machine with Apptimized in the cloud the **Apptimized TO GO** agent launches from the **Start** menu. Then the deployment code must be entered into a popup window.

Apptimized Files with uploaded files will be automatically uploaded to the folder after clicking on the **OK** button:
