

Download

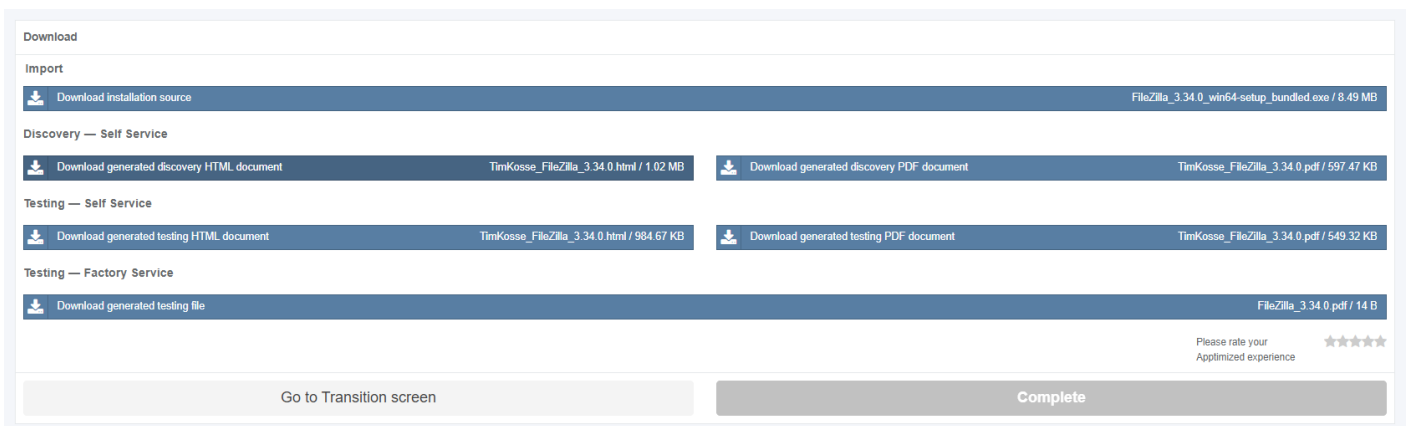

The download process starts by clicking the **Download** module on the **Transition screen**:

The set of documents to download depends on:

- the workflow structure (i.e., the number of steps, the set of module types) that was configured during project creation;
- the number of steps a user completed (a user can skip steps (for example, after importing the application user proceeds to the testing step). Thus, regardless of the workflow structure, the step may remain without results (generated documents), if the user skipped it.

The screenshot below shows the examples of possible download page configurations:

Download

Import

Download installation source FileZilla_3.46.3_win32-setup.exe / 7.59 MB

Discovery

Download generated discovery HTML document TimKosse_FileZilla_3.46.3.html ...

Download generated discovery PDF document TimKosse_FileZilla_3.46.3.pdf / 5...

Testing

Download generated testing HTML document TimKosse_FileZilla_3.46.3.html / 7...

Download generated testing PDF document TimKosse_FileZilla_3.46.3.pdf / 522...

The option to download results is available under the **Download installation source**, or **Download package**, or **Download generated [discovery/testing] HTML document**, or **Download generated [discovery/testing] PDF document** buttons.

Download

Import

Download installation source FileZilla_3.34.0_win64-setup_bundled.exe / 8.49 MB

Discovery — Self Service

Download generated discovery HTML document TimKosse_FileZilla_3.34.0.html / 1.02 MB

Download generated discovery PDF document TimKosse_FileZilla_3.34.0.pdf / 597.47 KB

Testing — Self Service

Download generated testing HTML document TimKosse_FileZilla_3.34.0.html / 984.67 KB

Download generated testing PDF document TimKosse_FileZilla_3.34.0.pdf / 549.32 KB

Testing — Factory Service

Download generated testing file FileZilla_3.34.0.pdf / 14 B

In case of a wrapping functionality was used, a wrapped package becomes available at **Packaging - Self Service step** deliverables:

The screenshot shows a software installation progress screen. It is divided into several sections: 'Download', 'Import', 'Discovery - Self Service', and 'Packaging - Self Service'. Under 'Packaging - Self Service', there are two download buttons: 'Download original package' and 'Download wrapped package'. The 'Download wrapped package' button is highlighted with a red border, and a red arrow points to it from below. At the bottom of the screen, there are two buttons: 'Go to Transition screen' and 'Complete'.

The process reverts to the initial screen by clicking the **Go to Transition screen** button.

The process finalizes by clicking on the **Complete** button.

The screenshot shows the 'Testing' section of the software installation interface. It includes two download buttons for testing documents: 'Download generated testing HTML document' and 'Download generated testing PDF document'. Below these, there is a 'Please rate your Aptimized experience' section with a five-star rating and the word 'Excellent'. At the bottom, there are two buttons: 'Go to Transition screen' and 'Complete', with the 'Complete' button highlighted in green.

Note. Rating the Aptimized experience is optional.

Aptimized shows the following notification when successful:

The screenshot shows a green notification box with the text 'Application is successfully completed.' and a close button (X) in the top right corner.
