

# Workflow

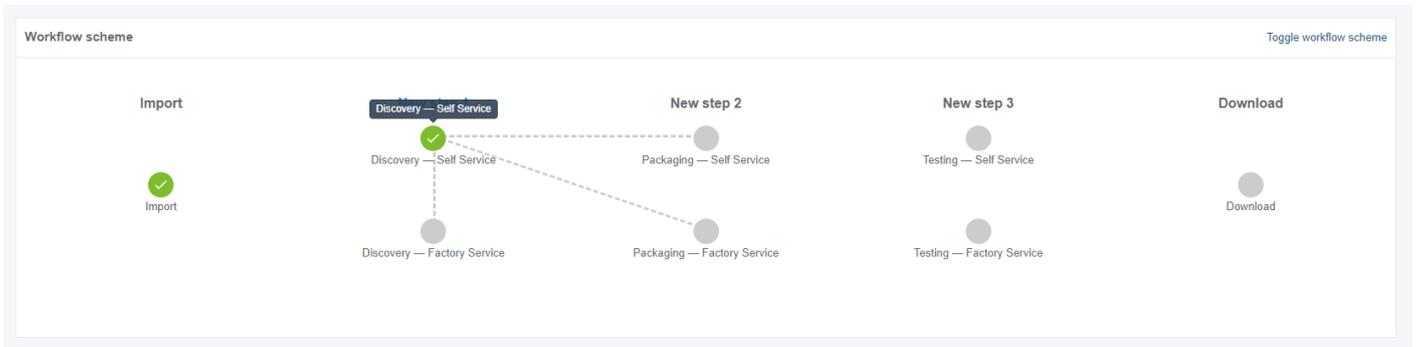

Apptimized shows a container-only workflow scheme after the application import is finished.

The screenshot shows two parts of the user interface. The top part, titled "Workflow scheme", displays a horizontal flow of five steps: "Import" (with a green checkmark), "New step 1" (with a blue circle), "New step 2", "New step 3", and "Download". A blue line connects the first two steps. The bottom part, titled "Transition screen", displays a congratulatory message: "Congratulations, you have successfully completed Discovery — Self Service module." Below this, there are two columns of options. The left column is titled "For New step 1 you can do:" and contains two buttons: "Discovery — Self Service" and "Discovery — Factory Service", each with a question mark icon and the text "Click to select this module". The right column is titled "For New step 2 you can do:" and contains two buttons: "Packaging — Self Service" and "Packaging — Factory Service", each with a question mark icon and the text "Click to select this module". At the bottom right of the transition screen is a blue button labeled "Skip to New step 3".

The option to expand a workflow scheme into a more detailed view is available under the **Toggle workflow scheme** button. Apptimized shows the following screen:

The screenshot shows a detailed view of the workflow scheme. It features a horizontal flow of five steps: "Import", "New step 1", "New step 2", "New step 3", and "Download". The "Import" step is marked with a green checkmark. Below each step, there are two options: "Discovery — Self Service" and "Discovery — Factory Service" under "New step 1"; "Packaging — Self Service" and "Packaging — Factory Service" under "New step 2"; and "Testing — Self Service" and "Testing — Factory Service" under "New step 3". A red box highlights the "Toggle workflow scheme" button in the top right corner.

Possible action scenarios are displayed in dashed lines when the cursor hovers over a point that represents a specific module.

An information block with step progress details is available when clicking on the dots, which represent a specific module.

The diagram shows the workflow scheme with a detailed information block for the "Discovery — Self Service" module. The information block includes:

- Discovery — Self Service** (with a progress bar)
- Status:** Document available
- Platform:** Windows 10 64-bit EN (1809)
- Updated:** 3/30/2020 10:35 AM
- Assignee:** Olena Hryshchenko
- Files (2):**
  - TimKosse\_FileZilla\_3.46.3.html 50.17 KB

Below the information block, the transition screen shows:

- For New step 1**: "Discovery — Self Service" (with a green checkmark) and "Click to select this module".
- For New step 2 you can do:** "Packaging — Self Service" (with a question mark icon) and "Click to select this module".

Steps and modules that were not used (e.g., skipped) are colored in grey.

The current step and the current module are highlighted in blue.

The passed steps and modules are colored in green.

Optimized transition screen shows modules for the current step (on the left column) and modules for the next step (on the right column).

The modules' borders to be passed are colored in grey.

The modules' borders that are already passed are colored in green.
