

Workflow

Apptimized shows a container-only workflow scheme after the application import is finished.

The screenshot shows two parts of the interface. The top part, titled "Workflow scheme", displays a progress bar with five steps: "Import" (completed with a green checkmark), "New step 1" (active with a blue circle), "New step 2", "New step 3", and "Download". A "Toggle workflow scheme" link is in the top right. The bottom part, titled "Transition screen", displays a congratulatory message: "Congratulations, you have successfully completed Discovery — Self Service module." Below this, it lists actions for "New step 1" and "New step 2". For "New step 1", the actions are "Discovery — Self Service" and "Discovery — Factory Service", each with a "Click to select this module" link. For "New step 2", the actions are "Packaging — Self Service" and "Packaging — Factory Service", each with a "Click to select this module" link. A "Skip to New step 3" button is at the bottom right.

The option to expand a workflow scheme into a more detailed view is available under the **Toggle workflow scheme** button. Apptimized shows the following screen:

The screenshot shows the "Workflow scheme" in a detailed view. The "Toggle workflow scheme" button is highlighted with a red box. The workflow consists of five main steps: "Import", "New step 1", "New step 2", "New step 3", and "Download". "Import" is completed. "New step 1" is active and contains two sub-steps: "Discovery — Self Service" and "Discovery — Factory Service". "New step 2" contains "Packaging — Self Service" and "Packaging — Factory Service". "New step 3" contains "Testing — Self Service" and "Testing — Factory Service". "Download" is the final step.

Possible action scenarios are displayed in dashed lines when the cursor hovers over a point that represents a specific module.

The screenshot shows the "Workflow scheme" in a detailed view with a hover action. The "Toggle workflow scheme" button is highlighted with a red box. The workflow is the same as in the previous screenshot. A dashed line is shown connecting the "Discovery — Self Service" module in "New step 1" to the "Packaging — Self Service" module in "New step 2". Another dashed line connects the "Discovery — Self Service" module to the "Packaging — Factory Service" module in "New step 2".

An information block with step progress details is available when clicking on the dots, which represent a specific module.

The screenshot displays a workflow scheme with four steps: Import, New step 1, New step 2, and Download. The 'Import' and 'New step 1' steps are marked with green checkmarks, indicating they are completed. A tooltip for 'Discovery — Self Service' is open, showing details: Status: Document available, Platform: Windows 10 64-bit EN (1809), Updated: 3/30/2020 10:35 AM, Assignee: Olena Hryshchenko. Below the tooltip, a file list is visible: 'TimKosse_FileZilla_3.46.3.html' (50.17 KB) and 'TimKosse_FileZilla_3.46.3.pdf' (85.99 KB), each with options for Download, Preview, Open in new window, and Send link. The transition screen below shows a message: 'successfully completed Discovery — Self Service module.' and a button for 'Packaging — Self Service' with a question mark icon. A note says 'For New step 2 you can do:'.

Steps and modules that were not used (e.g., skipped) are colored in grey.

The current step and the current module are highlighted in blue.

The passed steps and modules are colored in green.

The screenshot shows the workflow scheme with 'New step 1' completed. A tooltip for 'Testing — Self Service' is open, displaying 'No data is available'. The transition screen below shows a message: 'Congratulations, you have successfully completed Discovery — Self Service module.' and two columns of module options. The left column is for 'New step 1' and the right column is for 'New step 2'. Each column has two options: 'Discovery — Self Service' and 'Discovery — Factory Service' (left); 'Packaging — Self Service' and 'Packaging — Factory Service' (right). Each option has a question mark icon and the text 'Click to select this module'. A blue button at the bottom right says 'Skip to New step 3'.

Optimized transition screen shows modules for the current step (on the left column) and modules for the next step (on the right column).

The screenshot shows the transition screen with a message: 'Congratulations, you have successfully completed Discovery — Self Service module.' Below the message, there are two columns of module options. The left column is for 'New step 1' and the right column is for 'New step 2'. Each column has two options: 'Discovery — Self Service' and 'Discovery — Factory Service' (left); 'Packaging — Self Service' and 'Packaging — Factory Service' (right). Each option has a question mark icon and the text 'Click to select this module'. A blue button at the bottom right says 'Skip to New step 3'.

The modules' borders to be passed are colored in grey.

The modules' borders that are already passed are colored in green.
